

Coolant

**PETRONAS Tutela Coolant Premix**

Range:

Long description: PETRONAS Tutela Coolant Premix is a high quality ready to use conventional Coolant delivering optimized performance and component durability for heavy-duty engine cooling systems. Formulated with Mono-Ethylene Glycol enhanced with a special Inorganic Acid corrosion inhibitor Technology with nitrites, borates and silicates (IAT Technology), free of phosphates and amines, it provides protection against overheating, frost and corrosion. Suitable for passenger cars, commercial vehicles and off-road machinery where a conventional coolant technology is required.
